**BIOGRAPHY**

A recent graduate from the University of Northampton, I am currently seeking full time or part time employment with an agency or studio that is creatively challenging and looking to add a young, fresh designer to their team. I am passionate about my work, and enjoy various forms of art and design, but I specialise in typography and branding. I am hard working, self-motivated, honest and responsible.

---

**HOBBIES & INTERESTS**

I have been designing a range of greetings cards since 2012 (while at university), which I sell at various events and in a few small local shops.

---
